Key Points : Artist2 « Brand Recognition »

Artist2 has strong 'brand recognition' within the European and international community. This is visible through:

- Our leading role in WG for the ARTEMIS Strategic Research Agenda (European Centers of Excellence, ARTEMISIA bylaws, reference architecture WG)
- Organization of major conferences (Embedded Systems Week, Date, RTSS) as well as in IEEE and the ACM.
- International Collaboration activities (high-level meetings and schools)
- Triggering important R&D projects (national and European)
- Many teams play a leading role in their own countries, by participating in setting up and leading national centers of excellence and major projects.
- The European embedded systems community is now a reality, through a structured constituency, as attested by strong presence in conferences, and significant interaction at all levels.
