

Jean-bernard ITIER (Airbus France): The AIRBUS approach to open Integrated Modular Avionics (IMA), Technology, Methods, Process and Future needs

(AIRBUS – Strategic Technical Project Manager for Information Management of Avionics Platform)

This very detailed presentation describes AIRBUS approach on A380/A400M of an IMA oriented on civil Aircraft market. The presentations give also a lesson learned from these developments, and identify the next R&T challenges for future IMA platforms.
